

RIOTING AND FIRES IN THE MOB'S PATH.

VIOLENCE IN ALL PARTS OF CHICAGO TODAY.

The Burlington's Loss By Fire is Half a Million—Regulars Hurried to the Forty Ninth Street Crossing—Mob Moves Over to West Chicago Where Police are Few.

CHICAGO, July 7.—This has been a day of fires and rioting and destruction, accompanied by small gains for the railroads.

Four trunk lines use the Western Indiana tracks out of Chicago and have been tied up completely by the blockade of that road. At noon the Western Indiana president announced his line open. Eastern trunk line trains were speedily put in motion and have been running all the afternoon.

The Burlington yard was set on fire in spots for two miles, at 8 o'clock.

The agent of the Illinois Central at South Chicago telegraphed that a mob was gathering there and was derailing trains in the Baltimore & Ohio yard and setting fire to Illinois Central passenger coaches.

Five cars of regulars were sent from the Grand Central depot to the tracks in the vicinity of Forty-ninth street where serious rioting has been going on all the morning.

The troops have orders to escort all trains out of the yards and to shoot to kill if the mob interferes.

One striker was killed this morning.

The property loss to the Burlington by the fire in the Hawthorn yards last night is about half a million dollars.

The Maple Leaf express was wrecked at Melrose this morning. None of the passengers were injured.

Debs and Sovereign said this morning that a call would be made on the Knights of Labor and all trades all over the country to strike.

An announcement was issued by Master Workman Sovereign this afternoon that the Knights of Labor would be ordered out next Monday in the biggest sympathy strike ever attempted.

Mobs gathered at 11 o'clock on the extreme west side of the city this morning. This district has been quite free from rioting and only a small force of police is stationed there.

A review of yesterday's conflict shows that the soldiers exercised great forbearance. Instead of declaring martial law the army authorities held off for the time being and told Mayor Hopkins to go ahead and see what he could do toward preserving order. Hopkins wired Gov. Altgeld demanding five regiments of militia.

The governor at once ordered out the First and Third brigades. The First brigade is composed of the First and Second infantries, troop A, battery D, and the Seventh infantry, all of Chicago. The Third brigade comprises the Third and Sixth regiments, from Elgin, Ottawa, Bloomington, Rockford, Streator, Freeport, Galena, Sterling, Dixon and other cities. The militia were ordered to report to Hopkins to aid the mayor in suppressing riots, keeping the peace, and enforcing the laws. The militia being in effect police, the mayor turned it over to the police officials. The entire First brigade, with the exception of the Seventh regiment, was ordered to report to Inspector Hunt at Hyde Park for duty at the stock yards and on the south side south of Thirty-ninth street. The Seventh was ordered held in reserve at Battery D. The Third and Sixth were assigned to Inspector Fitzpatrick for duty north of Thirty-ninth street and will camp at the South Side ball park. Within a few hours all the Chicago regiments were at their assigned posts and the Third and Sixth were either in Chicago or on the way.

Three hundred extra policemen were sworn in, increasing the police force to 3,300. There are in the neighborhood of 1,000 deputy United States marshals in active service, and half that number of deputy sheriffs. The Leavenworth regulars, 300 strong, and those from Fort Brady, 150 strong, arrived yesterday morning.

Yesterday was the most disorderly since the inauguration of the strike. Five lives were lost in conflict between the authorities and sympathizers with the strikers. In the evening fires were started in the stock yards district in so many different places that the fire department was powerless. Between 600 and 700 freight cars were destroyed, many of them loaded. Miles and miles of costly track are in a snarled tangle of heat-twisted rails. Not less than \$750,000—possibly a whole \$1,000,000 of property was destroyed. The American Railway Union officials and strikers are doing their utmost to stop this lawlessness. The ministers of the city have resolved to use their influence for arbitration, and have called a mass meeting for to-morrow.

It is now said the railroads will bring suit against the city to recover damages for their property destroyed by the rioters. The law specifies that they may recover three-fourths of the value of the property.

The Burlington, Santa Fe, St. Paul, Northern Pacific, Great Western and Lake Shore roads were the only ones to run regular passenger trains yesterday. The Panhandle and Pennsylvania made vain efforts, and the Alton gave up in disgust. The Western In-

diana blockade tied up the Erie, Grand Trunk, Monon, and Eastern Indiana, and the Wabash only moved one train out. The Michigan Central and Illinois Central were blockaded at Kensington.

A meeting of the Building Trades Council last night was practically unanimous in favor of a strike. All the varied interests were represented. The following resolution was passed: "Resolved, That this Building Trades Council declares in favor of a general cessation of all industries throughout the country, provided such demand for arbitration is not conceded. We, therefore, call on all organized labor throughout the country to immediately consider the advisability of such a step." The consequences of a cessation of work by so large a body of men, practically stopping production, would be ruinous to the interests of Chicago, and it is thought sufficient influence will be brought to bear upon Pullman to make him agree to arbitration. President Debs has left the city and is supposed to have gone to Buffalo in the interests of the American Railway Union at that point.

DEBS SAYS VICTORY IS HIS

So Runs a Telegram to a Sympathizer in Jackson, Mich.

JACKSON, Mich., July 7.—A dispatch received here from President Debs reads: "We have assurance that within forty-eight hours every labor organization in the country will come to our rescue. The fight is on, and our men are acquitting themselves like heroes. Our cause is gaining ground daily, and success is only a question of a few days." Division Superintendent Jordan says the Michigan Central people do not anticipate trouble outside of Chicago.

St. Joe, Mo., July 7.—Two companies of the Wickham rifles have been ordered to Brookfield, Mo., to protect the property of the Wabash and Santa Fe railways and to quell the rioting which has been in progress. No effort is being made to run trains either east or west of the Missouri river from this point.

Dubuque, Iowa, July 7.—A leading attorney of this city representing the Illinois Central and the Chicago Great Western has gone to Keokuk to obtain from Judge Woolson an injunction to restrain the railway strikers of Dubuque.

CINCINNATI, Ohio, July 7.—J. J. O'Brien, a trainman who quit work on the Big Four road at Valley Junction, is to be arrested, it is said, for violating the injunction of the United States court and delaying a train. He will be arraigned for contempt.

HUNTINGTON, Ind., July 7.—Ninety injunctions were filed against Erie employees in this city and several more arrests for impeding trains have been made.

TROOPS AND STRIKERS MAY MEET.

Attempt to Resume Work at Ironwood, Mich., May Lead to Trouble.

IRONWOOD, Mich., July 7.—The condition of affairs is serious and a collision between troops and strikers is sure to follow the proposed attempt to resume work.

SPRINGFIELD, Ill., July 7.—At a mass meeting of miners here it was decided to abolish the day work system in the Springfield district and to order State Secretary Guyman of the Miners' union to call a delegate meeting of every mine as soon as possible to organize a subdistrict. A committee of five miners was appointed to confer with a like number of striking railroaders with a view to aiding the latter in their strike by refusing to mine coal to be used for engines pulled by non-union men. Fifteen out of twenty-five mines in the district are working at miners' scales.

HILLSBORO, Ill., July 7.—The coal mines at Coffeen struck yesterday. They demand 60 cents a ton, which the company refuses to pay.

PHILADELPHIA, Pa., July 7.—Pennsylvania bituminous coal operators will pay only 40 cents a ton. They reported that many old miners were returning at the operators' terms.

TYING UP FORT SCOTT LINE.

All Men Strike at Fort Scott and Many at Kansas City.

FORT SCOTT, Kan., July 7.—The American Railway Union strike reached this city yesterday, when all the union men on the Kansas City, Fort Scott & Memphis road left their positions and refused to turn a wheel. The road is practically tied up. Over 200 applications for membership to the union were presented.

KANSAS CITY, Mo., July 7.—The Santa Fe got several freight trains out yesterday with new fireman. The Memphis line sent out one passenger train and also several carloads of fruit billed for southern points. The Burlington road was operating, notwithstanding the strike of its firemen. Owing to the trouble on the Kansas City, Fort Scott & Memphis road, the Missouri, Kansas & Texas is not moving or accepting freight. The Wabash, the Alton and the Rock Island are doing practically nothing. Every man, from engineer to brakeman, that goes out on a freight on the Burlington will be sworn in as a United States deputy marshal and will carry arms.

FORCE FOR HAMMOND.

Gov. Matthews of Indiana Responds to a Call for Troops.

INDIANAPOLIS, Ind., July 7.—The Indiana troops will be ordered out to-day to take a hand in moving trains at Hammond. Gov. Matthews received a call for troops last night from Sheriff Fredericks of Lake county and replied that he would have men on the

way the first thing in the morning. Troops from the northern part of the state will probably be called.

HAMMOND, Ind., July 7.—There was rioting here last night. The sheriff can no longer control it and has applied to the governor by wire for authority to call out the Indiana troops.

Out at Birmingham and Nashville.

BIRMINGHAM, Ala., July 7.—All the Louisville & Nashville, Kansas City, Memphis & Birmingham, and Georgia Central yardmen here have struck. The strike is expected to become general here. All is quiet, but trouble is feared hourly.

NASHVILLE, Tenn., July 7.—The switchmen of the Louisville & Nashville and Nashville, Chattanooga & St. Louis railway went on strike. Only members of the American Railway Union are out. Business in the yards is disorganized and demoralized. Indications point to a serious tie-up, especially to freight trains. The American Railway Union held a secret meeting and received many new members.

Many Railway Men Arrested.

PUEBLO, Colo., July 7.—Eighteen regulars have taken the places of 125 marshals at the Santa Fe depot. An adverse decision of Judge Voorhees of the District court, selected by Gov. Waite to cross arms with the federal government, will probably put an end to further action by the state courts.

LA JUNTA, Colo., July 7.—The Santa Fe officials announce they will at once send out all regular trains for California. Five strikers, including John Martin, chairman of the committee of the A. R. U. have been arrested here and taken to Denver.

Tie-Up Is in Force at Cleveland.

CLEVELAND, Ohio, July 7.—Yesterday the railroad strike came upon this city in all its force and freight traffic is at an end and all roads entering this city are refusing freight. The mails have not been interfered with and passenger trains are still running with some regularity.

ALLIANCE, Ohio, July 7.—Owing to the strike in Cleveland the Cleveland & Pittsburgh railroad officials have annulled all their freight trains and the line is practically deserted. The company managed to get all its passenger trains over on the line on time yesterday.

May Tie Up Buffalo.

BUFFALO, N. Y., July 7.—A general strike on the Lake Shore, Michigan Central, Erie, Grand Trunk and Nickel Plate roads in this city is probable within twenty-four hours. Debs telegraphed to President Malican of the local railway union to have all the men in this city withdraw from service immediately. The American Railway Union is strong on the Erie and West Shore roads and these men will go out promptly. The other eastern roads can not hope to hold their men when the break comes.

FIVE HUNDRED QUIT AT FRANKFORT

Clover Leaf Men Strike on Orders From President Debs.

FRANKFORT, Ind., July 7.—Acting under Debs' orders yesterday 500 employees of the Clover Leaf road, including men in all branches of the railway service, struck. The road is now tied up from Toledo to St. Louis. The company has had a number of deputy sheriffs sworn in to protect its property, if necessary.

CHARLESTON, Ill., July 7.—The strike reached this place yesterday, when an attempt was made to tie up the Clover Leaf road. At a meeting of fifty or sixty of the trainmen and shopmen it was decided to strike. Freight traffic has been abandoned and both express trains have been taken off. The strikers charge the officials with circulating false and defaming reports, using threats, carrying arms and violating the law.

TOLEDO, Ohio, July 7.—Receiver Callaway of the Clover Leaf road yesterday received a telegram from Frankfort, Ind., signed "committee," containing the information that the American Railway Union at that place had decided to tie up his road. Mr. Callaway promptly wired General Superintendent Mills at St. Louis to lay off every employee whose services are not actually required to run passenger trains.

Few Trains Move on the Big Four.

WABASH, Ind., July 7.—There is no perceptible improvement in the railway situation here. The men on the Michigan division of the Big Four are all out and confident. The strikers orderly. On the Wabash business is at a standstill. The outlook is bad, but the management declares it will break the blockade west to-day.

ANDERSON, Ind., July 7.—The Big Four yards here are blockaded. The Panhandle may also go out.

BENTON HARBOR, Mich., July 7.—No trains were moved on the Michigan division of the Big Four road till 3 o'clock yesterday, when a train crew reported for duty.

DELAWARE, Ohio, July 7.—The Big Four shop and yard men struck here early. Not a car moves. All yard engines are idle.

Pittsburg Men Wish to Go Out.

PITTSBURG, Pa., July 7.—An enthusiastic meeting in favor of striking was held here last night. After the meeting a session of the executive board was held and many new members taken into the organization. The strike on the Cleveland & Pittsburgh road has reached Conway, twenty-three miles west of this city, where the yards of the company are located. All freight trains are tied up at that point and nothing has come through. All through passenger

trains from the west were delayed, the only trains arriving being those made up at Fort Wayne and Columbus.

Railroad Blaze at Cairo, Ill.

CAIRO, Ill., July 7.—Fire was discovered yesterday in an empty freight car in the Big Four yards and, under the influence of a stiff wind, spread rapidly. About 300 feet of two platforms were burned. Twenty-five Big Four cars, four of which were loaded with the company's lumber and shingles, and two Mobile & Ohio cars were destroyed. Loss, \$20,000. The fire was of incendiary origin, supposed to have been started by tramps.

Alton Is Working at Bloomington.

BLOOMINGTON, Ill., July 7.—Most of the passenger trains on the Alton are running here, though most of them are behind time. There is being held a meeting of the Brotherhood of Locomotive Engineers of the Alton to decide upon a course of action.

ROOSEVILLE, Ill., July 7.—The Order of Railway Conductors on this division of the Chicago & Alton held a meeting here and decided to stay with their positions and the company.

Strike Still Holds at Joliet.

JOLIET, Ill., July 7.—The Elgin, Joliet & Eastern, Rock Island, Chicago & Alton and Michigan Central strike still holds. Meetings are being held principally to urge the engineers on all roads to leave their engines. The Elgin, Joliet & Eastern men propose to go back because they handle no Pullmans.

KANKAKEE, Ill., July 7.—The New Orleans limited was turned about here yesterday without attempting to enter Chicago. Many of the passengers are asking for help, having spent all their money while delayed at other points.

Only Mail Trains Move.

EVANSVILLE, Ind., July 7.—The Peoria, Decatur & Evansville road is tied up. The air line men are all out and are stopping everything at Princeton, Ind., except the mail trains. The shopmen are all out. The Louisville & Nashville men are all out except the shopmen, and no freight is being handled. Many deputies have been sworn in. Although matters are quiet at present, one man has been killed here, a brakeman named Robards.

Are Doing Better at Cairo.

CAIRO, Ill., July 7.—Everything is peaceful and quiet in railroad circles here. All trains are running regularly on the Illinois Central, half a dozen freight trains having been made up and sent out at Mounds. The strikers say they will not forcibly detain any train the Central can find men to run. The troops are still here, but it is said they have marching orders. Apparently the trouble here is at an end.

Conductors Will Not Join the Strike.

DENVER, Colo., July 7.—The Order of Railway Conductors have decided not to join the strike. They may even expel from the order all members who have gone on strike.

TRINIDAD, Colo., July 7.—The employees of the Santa Fe Midland railroad at this point held a meeting and decided not to strike. The entire Denver and Rio Grande crews are still out and not a wheel is moving on that road.

Toledo Feels the Strike Keenly.

TOLEDO, Ohio, July 7.—The strike has at last struck Toledo with full force. The Lake Shore men are stopping work as they come in. The strike at Cleveland, with the threatened tie-up at Buffalo, leaves Toledo men little else to do but to follow suit. Only one train left the city over the Wabash yesterday, but the crew entertained little hopes of getting through. All yards will likely be tied up.

Gov. Altgeld Protests Again.

SPRINGFIELD, Ill., July 7.—Gov. Altgeld has addressed another letter to President Cleveland with regard to the federal troops being massed at Chicago. He declares their presence unnecessary and calculated to incite disorder, and demands their withdrawal. The President insists that he is acting strictly within the law and refuses to recede from his position.

Train Wrecked Near Sedalia.

SEDALIA, Mo., July 7.—A costly wreck occurred near Sedalia on the Missouri Pacific railway yesterday. Thirteen cars of a westbound freight went into the ditch. No trainmen were injured. The wreck is supposed to have been caused by the removal of a rail strap by unknown persons.

Tie-Up at Milwaukee.

MILWAUKEE, Wis., July 7.—Judge Seaman's injunction had a quieting effect on the strikers here. Everything is quiet, but the railroad tie-up is so complete in the freight department that the people of Waukesha are hauling their supplies from this city with teams.

Telegraphers Will Not Strike.

EMPORIA, Kan., July 7.—Some few freight trains are moving. No disturbance of any kind has occurred. A meeting of the Order of Railroad Telegraphers on the Santa Fe was held last night after midnight, when it was decided that the order would not be ordered out.

Stoppage Is So Complete at Detroit.

DETROIT, Mich., July 7.—Organizer Spence of the American Railway Union has everything arranged here for a strike of all the organized bodies of railway men in Detroit, except the engineers, and there is scarcely a doubt

that every railroad entering the city will be paralyzed to-day.

Dayton to Be Tied Up.

DAYTON, Ohio, July 7.—Tuttle of Chicago and Hollingsworth and Ladd of Cincinnati organized an American Railway Union lodge, which adopted a resolution that not a wheel should be turned in Dayton after 2 o'clock a. m. to-day.

Doing Better at Memphis.

MEMPHIS, Tenn., July 7.—The tie-up on the Kansas City and Little Rock and Memphis roads was partly removed yesterday and passenger trains are moving with a fair degree of regularity. The other roads are in good shape.

Refuses to Arbitrate.

COLUMBUS, Ohio, June 7.—President Waite of the Hocking Valley has refused to arbitrate with the switchmen who struck. The employees and state board of arbitration are endeavoring to have the road arbitrated.

Running, but Under Difficulties.

FORT WAYNE, Ind., July 7.—The Nickel Plate ran one passenger train west yesterday with the aid of the entire force of day policemen. Two passenger trains are still lying dead in the depot. Mail trains are being run.

Still Hold the Line.

SAN FRANCISCO, Cal., July 7.—The Southern Pacific company seems to be no nearer the management of their road in California. The strikers still control the road. The company declares it will not withdraw the Pullmans nor restore wages.

Hundreds of Men Laid Off at Omaha.

OMAHA, Neb., July 7.—The Cudahy Packing company has laid off 300 men in its hog killing department. Swift laid off 250. Many other concerns will have to follow suit.

Regulars All Ready to Move.

OMAHA, Neb., July 7.—United States troops are under orders at Fort Robinson to move at a moment's notice.

BASEBALL.

Game Played in the National League Yesterday.

Philadelphia took fourth position in the National league club yesterday. Games played were:

At Pittsburgh:	2	0	1	2	0	0	2	0	0	7
Pittsburgh:	2	0	1	0	0	2	0	6	2	13
At Cleveland:	0	0	0	0	0	1	5	0	0	6
Cleveland:	8	0	7	0	1	3	0	0	0	19
At Louisville:	1	0	2	1	0	4	0	1	10	10
Louisville:	0	0	1	0	0	3	0	2	0	6

WAITE EMULATES ALTGELD.

Colorado's Executive Neck and Neck With the Illinois Governor.

DENVER, Colo., July 1.—Gov. Waite, who is indignant at the action of the United States marshal in ordering the arrest of strikers without warrants, has wired President Cleveland as follows:

GROVER CLEVELAND, PRESIDENT OF THE UNITED STATES, WASHINGTON: Issued instructions to deputies at La Junta and Trinidad as follows: "Any violator of injunctory order must be arrested without special warrant. Do not take parties before local officers. Allow no talk on company's property tending to cause trouble. Arrest parties who engage in talk, whether on or off company property, which is intended to intimidate employees or induce them to quit receivers' employment. No warrants are necessary for arrest of any parties violating injunction, whether on company property or elsewhere. Pay no attention to local officers or magistrates. If they interfere with you arrest them. Interference with you will not be tolerated."

United States Marshal Israel has enlisted and armed over two hundred men as special deputies, has five companies of United States troops and is carrying on war in Colorado regardless of state rights. His deputies arrest without warrants and are ordered to admit of no interference by county or state magistrates. By what authority does Marshal Israel violate the constitution as to arrests and usurp our authority to suspend the writ of habeas corpus in Colorado?

DAVIS H. WAITE,
Governor of Colorado.

Senator Allen Attacks the Strike.

WASHINGTON, July 7.—Allen of Nebraska introduced in the senate to-day a resolution for the appointment of a committee of five senators, not more than two of whom shall be of the same party, to consider the advisability or necessity of government ownership of railroads and telegraphs and to examine the existing troubles between employers and employees, and discover what legislation is necessary to prevent strikes and lockouts in the future.

Disagree on the Tariff Bill.

WASHINGTON, July 7.—The tariff bill has been taken from the speaker's table and referred to the committee on ways and means, which will meet promptly and report back a recommendation for a disagreement. The bill will be put in conference to-morrow and work promptly begun adjusting the senate amendments.

Martial Law Asked for Spokane.

SPOKANE, Wash., July 7.—United States Marshal Vinson has made an application to have the city put under martial law as a result of the mob action. Troops are expected from Fort Sherman inside of twenty-four hours.

LAW TO BE UPHELD THOUGH MANY DIE.

CLEVELAND RESOLVED TO CRUSH REBELLION.

More Troops For Chicago if Needed—Militia From Other States Will be Ordered to Chicago if Such a Move Be Necessary—The Feeling in Washington.

WASHINGTON, July 7.—The administration regards the situation in Chicago as serious in the extreme. The President is in constant telegraphic communication with Gen. Miles, but up to last night he had received no news of a positive character. There have been frequent conferences between Cleveland, Olney, Lamont and Schofield, and at the regular cabinet meeting the situation was thoroughly discussed. There was discussed the draft of a statement drawn up by the attorney general to be given to the public in reply to Governor Altgeld's mischievous and dangerous protest. This statement will doubtless be given out this afternoon. It is brief, about three or four hundred words long, and is simply a plain exposition of the law showing the President to be clearly in the right in ordering troops to Chicago. The administration puts much faith in Mayor Hopkins' declarations. If, however, the police do their duty and with the state authorities prevent the assembling of crowds, the present force of regulars will, the President believes, be sufficient to move the trains and execute the federal law. But this much can be relied upon.

The law must be obeyed, and President Cleveland will see that it is obeyed if it takes every soldier in the regular army to compel obedience. This is authentic. If the regular army is not big enough to compel that obedience the President will order to Illinois the militia from other states, he ginning with New York and Pennsylvania. His authority for this is found in section 5298 of the revised statutes of the United States. It is as follows: SECTION 5298. Whenever by reason of unlawful obstruction, combinations or assemblages of persons or rebellion against the authority of the government of the United States it shall become impracticable, in the judgment of the President, to enforce by the ordinary course of judicial proceedings, the laws of the United States within any state or territory it shall be lawful for the President to call forth the militia of any or all the states and to employ such parts of the land and naval forces of the United States as he may deem necessary to enforce the faithful execution of the laws of the United States or to suppress such rebellion as whatever state or territory thereof the laws of the United States may be forcibly opposed or the execution thereof forcibly obstructed.

Strike Depends on Chicago.

WASHINGTON, July 7.—Put an end to the strike in Chicago and the whole movement will come to a close at once. This is the conclusion of administration officials, as expressed by Attorney-General Olney yesterday, and it is with the object of making this conclusion a fact that the authorities are directing all their energies toward the suppression of the strikers in Chicago.

The conclusions reached by the cabinet were not to throw any more troops into Illinois unless absolutely necessary; to impress upon Gen. Miles the necessity of caution in looking after federal interests only, and to allow the state authorities to preserve peace, and a reiteration of the determination to indict Debs and the other labor leaders for a violation of the federal statutes.

Knights of Labor to Go Out.

PHILADELPHIA, Pa., July 7.—John W. Hayes, secretary-treasurer of the Knights of Labor, said yesterday that he expected any hour to receive word from Master Workman Sovereign ordering the Knights of Labor all over the country out on strike and that this action must come. He also said that counsel for the Knights had been instructed to prepare articles of impeachment against Attorney-General Olney for his alleged breach of the law in his action in the railway strike and that the papers would be forwarded to congress in a few days.

Alive With a Broken Neck.

MACOMB, Ill., July 7.—About two weeks ago Mr. Miner of Table Grove fell from a hammock to the ground and broke his neck. Physicians were summoned but could do nothing for him. He is yet alive, although one side of his body is completely paralyzed.

Arrested for Committing Murder.

LYONS, Iowa, July 7.—Frank Peterson, a prominent young farmer of Teeds, is charged with the murder of Philip Wessel of the same place. Wessel was found dying near a dance hall at Teeds at 1 o'clock a. m. three years ago. The arrest has caused a sensation.

Clapp's Slayer Is Dead.

ST. PAUL, Minn., July 7.—Ehle Allen, who a few weeks ago killed John H. Clapp in a row over a woman and who was indicted for manslaughter in the first degree, committed suicide at Lake Minnetonka.

Revolution in Hayti May Occur.

KINGSTON, Jamaica, July 7.—Advice from Hayti state that a revolution in that country is imminent.

A WEALTHY FARMER COMMITTS SUICIDE.

RILEY LAMPHIER DIES BY HIS OWN HAND.

Wife Went to Clinton and When She Returned Her Husband Was Dead—Doings of Emerald Grove People on the Fourth—News From Other Towns.

FAIRFIELD, July 6.—It was a shock to all to learn that Riley Lamphier had committed suicide. Mrs. Lamphier and her mother were at Clinton Tuesday morning and on returning home she prepared the dinner and went to call her husband. Not finding him in the field where she expected she went to the barn and found him dead. Nothing of further importance was developed at the inquest, than that the deceased came to his death by his own hand and no cause for the deed could be ascertained. Riley Lamphier was born in Oakland, Wis., October, 1853, was married to Abbie Aclay in 1872. A wife, one son and two daughters survive. The funeral occurred on Thursday, the burial being in the village cemetery. Mr. and Mrs. William Monroe, of Hanson, Nebraska, are guests at B. Monroe's. Jerome Waterman has been rebuilding the foundations at the mill. B. Conry has the agency of the Northwestern wagon. Quite a number from this vicinity have been enjoying the gospel meetings at Emerald Grove. E. G. Gheesbro has been worse for the past few days.

EMERALD GROVE WAS PATRIOTIC No Lack of Fourth of July Spirit in That Lively Place

EMERALD GROVE, July 6.—Our Fourth of July picnic was a grand success. A large number spent the day under the inviting and cooling shade of Boynton's woods in spite of other attractions near by. When the people had assembled, and after the reading of the Declaration of Independence. Professor David Throne, district superintendent, made an address full of patriotism. After a picnic dinner the games took place which were good, the pig race better, and the ball game between the benedict and single men nearly "out of sight". The result was a victory for the married men by a score of 32 to 17. Every one went home well pleased with the entertainment of the day. A large number of our younger people went to Janesville and saw the display of fireworks which were considered good. Will Brown's big black team ran away attached to a mowing machine July 3rd. The horses made things jingle for about a mile when they were caught. One horse and the mower was considerably bruised. Dr. Roberts was called to attend the horse and the mower taken to the repair shop. Many of our farmers are well along with haying. The past two weeks have been fine weather for such work. The cut is a heavy one. Mrs. Samuel O. Olin and daughter Irene are visiting friends about the village. Mrs. Fowler and Miss Blackman relatives of Mrs. Hammond returned, by carriage drive, to their homes, eight miles west of Kenosha on last Monday morning. Miss Hammond of Waukesha, is visiting her brother, Mr. G. Hammond. The Communion services of the Congregational church will be held on next Sunday. The preparatory service will be held at 2:30 Saturday p. m. The Saturday night bible class will be resumed on next Saturday evening at 8 o'clock. The tent meetings closed with a fare well meeting Monday night. Mr. Boswell is a forcible and interesting speaker, thoroughly in earnest and backed by considerable experience although a young man. The Cheney Male quartette gave excellent music throughout the entire series of meetings of eleven days, twenty-one services in all. Mr. Parker's whistling and solo singing, also the solos by Messrs. Boughton and Boynton added not a little in variety and effectiveness to the value of the meetings. The covenant cards which were used read as follows: "I accept Jesus Christ as my personal Savior, and propose, through prayer, the study of the bible, and the help of God's spirit to lead a true christian life." Forty-three of these cards were signed as follows: Men, one; women one; young men 17; young women 5; boys 4; girls 6; children 12. Miss Jennie D. McArthur is attending a summer school at Stoughton. Sixty cents a dozen for Mason one-quart fruit jars at Gillies & Jones'. Rev. and Mrs. Webster Miller, of Stevens Point, are visiting Mrs. Millars' parents, Mr. and Mrs. James Plantz.

Monona Lake Assembly.
For the Monona Lake Assembly to be held in Madison July 24 to August 3, the Chicago, Milwaukee & St. Paul railway will sell round trip excursion tickets July 23 to August 3 at a fare and a third, good for return until August 4.

Low Rates to La Crosse.
On account of the bi-annual saengerfest of the Northwestern Saengerbund, at La Crosse, Wis., July 12 to 15 the Northwestern line will sell excursion tickets to La Crosse and return at greatly reduced rates. For dates of sale, limits of tickets etc., apply to agents Chicago & Northwestern R'y.

HIS BROTHER IMPERSONATED HIM How Arthur W. Brennecke Secured a State Pharmacists Certificate.

E. B. Heimstreet has returned from Milwaukee where he went to prosecute a peculiar case. As a result of his visit Arthur W. Brennecke was fined \$100 and costs by Judge Wallber on the charge of obtaining a pharmacist's certificate under false pretenses. According to the information Brennecke was one of the applicants for the examination of pharmacists at Green Bay on March 21, 1894. It was shown that instead of appearing before the board and taking the examination, he secured his brother Herman to write the examination in Arthur's name. Later Arthur called on the board and claimed the certificate. Arthur pleaded guilty yesterday.

J. D. KING HURT BY A FALL. Accident to the Former Janesville Man Reported at Washington.

J. D. King, who is now the Washington general agent of the United States Mutual Accident Association of New York, met with a painful accident Saturday night at Fourteenth and H streets while riding with his wife on a Fourteenth street car. He fell from the steps of the car striking on his head and cutting it very badly over one eye. He was taken into a neighboring drug store, where a physician took several stitches in the cut, and he was then taken to his home. He will soon be out as the wound is not serious.

BRIEF BITS OF STATE NEWS. The Dodgeville school board has decided against teaching music.

PRESIDENT PLANTZ, the new president of Lawrence university, has reached Appleton to look over the university.

STANISLAUS F. KRZEMINSKI, the American citizen banished to the salt mines of Siberia by the Russian government has relatives in Menasha.

THE Byron camp meeting was a successful one. Over \$1,000 were raised and all the improvements and an expensive programme paid for.

THE Beloit common council has granted thirteen saloon licenses for the ensuing year, at \$500 each. This is about the same number as last year.

OLE DESON, a young man, was found dead in a sitting position in the waiting room at the Stoughton depot. A bottle about half filled with carbolic acid was found in his pocket.

WHILE James Sullivan, 21 years of age, at Picketts, was unloading hay a pitchfork fell on him, one of the tines entering his shoulder and another piercing his neck. He will probably die.

POSTMASTER SOLOR of West Superior, has resigned the chairmanship of the democratic county committee because he thinks active political work not consistent with holding a government office.

CONSIDERABLE trouble is being experienced in erecting the Yerkes Telescope observatory near Lake Geneva. Now that the land claim is settled no one can be found to take the contract for the observatory.

JIMMY RUSSELL, of Menominee, was terribly injured while near a door in the Hotel LeRoy, Marinette. The end of a giant cracker that some one had thoughtlessly thrown into the room penetrated one of his legs to the depth of two inches.

LOUIS WAUPENASCUM, an Indian, while walking along the street at Shawano, swung his arms about with such force that he broke a glass can being carried by a passer-by and severed two arteries and tendons in one arm.

Dose Nearly Proves Fatal—Tent Bought For a Destitute Family by Evansville People—Grain of Corn Killed a Boy—Town Replaces Punctured Pneumatic Tires.

Insect powder is good to kill bed bugs and drive away tramps, but when taken in teaspoonful doses for a cold it is almost as fatal as 40-rod whiskey. D. W. Morrissey, of Walworth, tried it the other day, thinking he was taking ginger, and only the timely arrival of the doctor saved him from making his last grand shuffle.

Town Pays For Bicycle Tires.
It is the law over in LaGrange, Walworth county that when the tire of a bicycle bursts on the road the town shall pay all damage. The board voted an order last week to Frank Taylor, of that town, for a ruined tire, bursted while riding over a newly graveled road.

Skunks Are His Pets.
J. Winter, of South Grove, Walworth county, takes kindly to skunks as pets. He found a nest containing three young ones and took them home and raised them and they are as tame and playful as kittens. Next fall their hides will be worth \$3 apiece.

Little Heathen is a Curiosity.
The little colored girl, a late arrival from the jungles of Africa, excites considerable curiosity in Evansville, there being but one colored family there and they being well educated and native born.

Bought Poor Folks a Tent.
A poor family, all the way from Iowa in an open wagon, excited the sympathy of Evansville citizens to the extent that they purchased them a tent and fed them well.

PUBLIC LIBRARY HAS 8,558. Growth During the Last Year Has Been Steady—Names of Donors.

The annual report of public library directors shows nearly nine thousand books on the shelves and gives these facts:

"At the close of the year 1893 the accession catalogue showed 7,484 volumes. To this number we have added by purchase 1,033 volumes; by gift from J. B. Whiting, Jr., 4 volumes, and 37 bound volumes of magazines, making a total now upon the accession catalogue of 8,558 volumes. We have also added to the library of works not placed upon the accession catalogue, 34 volumes of patent office reports; 3 volumes of reports from E. B. Heimstreet; 36 volumes from E. McElroy, and 32 volumes and 284 pamphlets from the various departments at Washington.

"Of the 17 books reported missing at the end of last year 12 were afterwards returned, leaving 5 volumes unaccounted for. At this date there are 10 missing books, the larger number of which will doubtless be returned to us.

"There have been 29,048 books drawn from the library during the year, the largest number in one day being 275, the smallest number 28. The popular demand in reading is always fiction, with travel second, history third, in the estimate of the public. We have been pleased, however, to note a growing demand for works of a scientific nature, and have added largely to the various classes of scientific works upon our shelves.

"At the commencement of this year the board determined for one year at least to conduct the library with but one librarian, believing that there was not sufficient work for two, and that we are not warranted in expending as much money as we were then doing for help. With that in view we retained Mrs. Best as librarian, and as her labors would be more onerous; we increased her compensation to \$600 000 per year. The duties of librarian have been carefully and satisfactorily performed, and we have been able to devote a large sum to the purchase of books, as shown by the 1,033 volumes added by purchase this year as against 735 for the year 1893, being a gain of 308 volumes.

"The library board has been compelled to pass some additional regulations governing the use of books, and have forbidden the issuing of books at all to children under the age of twelve years. This we were compelled to do to check the abuse of books, that we could only attribute to their being issued to children too young to understand the care that should be given to them. We have also forbidden children between the ages of 12 and 15 to take books except upon the written order of an adult in whose name a card may be issued and restricted the number to be issued upon any card in one week to two books. While these rules may work hardship in some cases, we have deemed them essential to the proper care and preservation of the property in our charge.

"The various sums of money received and expended are shown as follows:

RECEIPTS.	
Balance, July, 1893.....	\$ 267.55
Library Fund.....	3,000.00
Fines.....	22.10
	\$3,289.65
DISBURSEMENTS.	
Rent.....	\$ 250.00
Electric Light.....	180.00
Gas.....	13.60
Coal.....	76.81
Insurance.....	90.00
Janitor.....	108.30
Printing.....	56.30
Binding.....	213.29
Books.....	1,046.27
Periodicals and stationery.....	139.90
Librarian.....	595.17
Assistant Librarian balance.....	57.77
Sundries.....	110.40
Balance.....	31.94
	\$3,289.65

"Of the above items of sundries, \$45.18 was expended for necessary additional shelving and for plumbing in the library, the remainder being for small supplies necessary from time to time during the year.

"In conclusion the board would respectfully ask that the sum of \$3,000 be appropriated for the support of the library for the ensuing year. Desiring to observe rigid economy in the management of this branch of the city government, we are still conscious that the needs of this institution cannot be met by a smaller sum.

The terms of office of Miss Cobb, Miss Pease and Mr. Hyzer expired in the month of April last to fill the vacancy upon the board caused by the resignation of Miss Rolston."

PULLMAN'S RUNNING ON THE "LIMITED."

ENGINEERS SAY THEY HAVE NO GRIEVANCE.

No Interruption Reported on the Way Up Last Evening—Train Was Late in Harvard But No Trouble Was Complained of—How Railroad Men Talk.

Pullman cars go through on the vestibule these days without interruption. This morning besides the combination buffet and baggage car there were the sleepers Guana, Persia and Lukin, of the Pullman make.

Not only are all these sleepers Pullmans but they displayed the maker's name as prominently as possible.

"Why are you so late?" asked a reporter of the engineer.
"We picked up our train late at Madison," he replied. "We have made up time between here and Harvard. Strike? I know nothing about it. We picked up the limited at Harvard and carried it along. And I suppose we will get the usual pay from the Northwestern."
"Perhaps we are hauling Pullmans, but my business is on the engine, and I see no reason why I should walk back to ascertain what company manufactured the coaches in the train."

HOPE FOR THE HAIRLESS.

Professor Birkholz, of Chicago, Gives Hope to Those Afflicted with Baldness—A "No Cure, No Pay" Treatment.

Professor G. Birkholz, of Chicago, the eminent German specialist, who for years has devoted his time and talent to the study of the hair follicles, and who has evolved the most successful treatment for baldness the world has ever known.

He will carefully examine each case and candidly inform the inquirer whether his baldness can be cured and the hair be restored. These examinations are made without charge.

In all cases where there are any hair follicles remaining undestroyed by age or disease the professor will undertake a cure, and if he does not effect a restoration of the hair he will ask no pay.

The remedy is an importation, and the treatment given by the professor is his own, and cures where all others fail. If your case has been pronounced incurable do not take it as a final answer until you have seen Professor Birkholz and received his opinion.

Many persons have small bald spots through the hair. These increase in area and in time produce baldness. In such cases the hair follicles need nourishment. Prompt treatment will bring them into activity and restore the hair.

The success that has attended Professor Birkholz everywhere enables him to give a positive opinion in each case presented to him. Those who are bald or are threatened with baldness should not delay treatment, but call upon the professor at once, 1011 Masonic Temple Chicago.

Hand this notice to any first-class druggist and he will get the remedy for you at once, if he has not got it in stock.

HARPER'S HISTORY OF THE WAR

Harper's Pictorial History is universally recognized as the best history of the war yet published. This superb work has never been sold for less than \$16 to \$30. It has been sold only by subscription and but a very few men have been able to buy it.

The pages are the same size as Harper's Weekly and the work contains all the illustrations appearing in that great paper during the war. The work was edited by Richard Grant White and Henry M. Alden and is authentic, complete and reliable.

We have made arrangements whereby we can furnish Gazette subscribers with this splendid history of twenty-six parts at ten cents a part. These twenty-six parts will contain over one thousand war pictures and will make two handsome volumes when bound.

Many official documents of priceless historic value are quoted in full in the copious foot notes, such for instance as Lincoln's inauguration speeches, articles of federation of the early states, constitution of the United States, ordinance of secession, and many important papers, speeches, etc. The war story is consecutive and very fascinating. The introductory chapters, leading up to the struggle, and the chapter on the reconstruction period, are by some of the first writers of the age.

Fair and Beautiful Lands Across the Sea. Give promise to the ocean voyager of health and pleasure, but there is a broad expanse of waters to be passed that rise mountain high in rough weather and grievously disturb the unaccustomed stomach, more particularly if it is that of an invalid. Moreover, the vibration of the vessel's hull caused by the motion of the screw of a steamer, a change of water and latitude, and abrupt transitions of temperature, cannot without a medicinal safeguard, be counteracted with impunity. For sea sickness, and prejudicial influences of air and water, Hostetter's Stomach Bitters is a standard safeguard. Tourists, yachtsmen, mariners, commercial travelers, and people bound on a sea voyage or inland jaunt, should always be provided with it. Incomparable for malaria, rheumatism, neuralgia, sleeplessness, loss of appetite, sick headache, biliousness and constipation.

THE LOGIC OF THE STRIKE.

The object of the present strike is supposed to be the adjustment of a dispute between the Pullman company and its employees at a comparatively unimportant town in Illinois. But the truth is, strictly speaking, that there is no dispute pending, and no question involved that can be considered a legitimate point of controversy. It is a contest in which all the fighting is being done on one side, while the other remains in a passive position, insisting that the matter is settled so far as it is concerned. In other words, the strikers have no cause of complaint against the Pullman company except that it has preferred to suspend work in its car factory at Pullman rather than to pay the wages demanded by the men employed there. It is not trying to compel those men to return to its service on the former terms or on any terms; it is not attempting to put other men in their places at reduced wages. They were told that such would be the result if they persisted in their refusal to continue work at the prices they were receiving. For reasons of their own, they chose to strike, whereupon the factory was

closed, and so the situation has since remained.

There is certainly no process of reasoning by which intelligent men can convince themselves that this justifies a general blocking of the railroad system and a serious interruption of business. The right of the Pullman company to quit manufacturing cars is indisputable, and that is the only offense with which it stands charged when the matter is candidly and impartially considered.

REFUSED TO SEE THE BOOKS.

There may be justification for the Pullman strike but how is the "sympathetic" performance of the A. R. U. to be justified? President Debs declares that he called his men out because Pullman refused to arbitrate. This is contradicted by the flat admission of Pullman employees that they were invited to examine the books and act as an arbitration committee themselves. They refused and by that refusal said that they didn't care whether the company was right or not, they were going to strike just the same. Whatever claim they had upon public sympathy was forfeited by this act, and they were put in the attitude of men who preferred a strike to a settlement. These are the men President Debs is backing to the demoralization of business throughout the country.

Suppose the democratic congress and administration have taken away the employment of 10 per cent of the country's wage-workers and reduced by an average of 25 per cent, the earnings of those who still have work. Haven't they made ample amends by making Labor Day a holiday?

How long could a government last that attempted to employ all of its citizens and to control all branches of business? This is a good summer conundrum for those who advocate the gobbling up of various private industries by the government.

No wonder Tammany is strong. It absolutely controls an army of 15,000 officials and its disbursements have in a single year exceeded \$88,000,000. But strong as it is there are grounds for the belief that its downfall is near.

The speeches which have proven the greatest successes as propagators of anarchy have been made in congress and circulated at government expense, in the Congressional Record.

It is much easier to say that 250,000 persons died in the United States last year from preventable diseases, as the doctors do, than it is to produce the preventative in each case.

Why will men persist in butting their heads against great stone walls? Not one of the great railway strikes of the past can be pointed to as a success for the strikers.

Democratic congressional nominations are cheaper than ever before, but the demand for them is only perceptible in spots.

More work and better pay, not more holidays, is what is needed. Congress, do you hear?

Chicago Board of Trade.

CHICAGO, July 6.—Wheat broke another cent this morning. This was the result of the strike. All peace measures have been a failure and an outbreak of great magnitude is feared. The cables were weak and lower. Liverpool was but 1/2d off, but Berlin was 3/4 marks lower. The weather is fine, the crop advancement excellent. The same is reported abroad. The new wheat is expected to come in a flood when railroads again resume business. July or cash wheat broke to 55 1/2c, 1c under last night. September sold 58 1/2c to 58 3/4c to 58 1/2c to 58 3/4c to 57 1/2c and rallied to 58c after midday.

Wheat rallied a little before the close at 55 1/2c July, 57 1/2c to 57 3/4c September. Cash wheat sales here reached 185,000 bu. and with the sales yesterday aggregate about 500,000 bu. Sales of 170,000 bu No. 2 Spring were made at September prices.

Prices smashed down in corn about midday after ruling about steady during the morning. The break was about as much the result of extreme dullness as the effect of the alarming labor troubles. Very little was doing in the cash trade as they had no receipts to work on. There were 5 cars received and 35 estimated for Saturday. Liverpool holds firm on corn. Exports were 74,000 bu. July corn sold 41 1/2c and broke to 40 1/2c to 40 3/4c. September sold 41 1/2c to 41 1/2c to 41 1/2c to 40 3/4c and held at 41c at 1 o'clock.

There was some selling or offering of stuff in the provision trade. Pork sold off nearly 20c, but closed only 10c lower at \$12.50 September. September lard was at \$6.80 to 6.82 1/2c only. July closed 5c off at \$6.67 1/2c. Ribs were off 7 1/2c July, at \$6.42 1/2c and 5c September, at \$6.47 1/2c.

BOARD OF REVIEW ENDS ITS LABORS.

NO CHANGE IN VALUATION
THIS YEAR.

New Buildings Just about Offset the Shrinkage in the Value of Those Already Standing—Janesville People Off For Asbury Park—Brief Local Notes.

The board of review practically concluded their work with the assessment rolls this afternoon. All that now remains is the adding of the different columns. The figures will remain about the same as last year. The new buildings about offset the depreciation of the old ones. The tax levy will be made by the council at the next meeting.

JOHN GRIFFIN, better known in tough circles as "Darb" Griffin and his companion, John Nash, were arraigned in the municipal court this morning on charge of d and d, which does not mean deaf and dumb. Both were adjudged guilty and Judge Phelps sentenced them to jail for ten days.

THINGS are not quite lively enough in our children's department. We shall make it hotter for July and August. For Monday and Tuesday one of those combination suits, with extra pants and cap at \$2 12½ have sold all the season at \$3.50. Will you miss such a chance? Zeigler, clothier.

BROWN BROS. & LINCOLN bought another \$10,000 stock of fine shoes at Hartford, Michigan, yesterday at 50 cents on the dollar. They will be here in a few days. Oh! what a picnic in shoes for July and August. Thousands of Janesville citizens will be made happy.

SUPERINTENDENT D. D. MAYNE, of the city schools, and wife left this morning for Asbury Park, New Jersey, intending to be absent two or three weeks visiting points of interest in the east and attending the National Educational association convention.

WOULD you like to make a fair comparison of our boys suit, with others? Buy one, take it around town, compare it, material, making, finish and price. Bring it back and get your money unless you'd rather have the suit. T. J. Zeigler.

SUNDAY papers will get here at 7 o'clock tomorrow morning. The papers usually come on a C. M. & St. P. freight at 10 o'clock but as no freights are running a special of one caboose and an engine will be substituted.

We bought at a large St. Louis auction sale 2,800 tins of Dandicoile and Gaudin sardines at a price less than importer's cost. We will retail them at 20 cents a can instead of 30 cents which is the usual price. Grubb Bros.

A PICKED nine from this city will try conclusions with the Athletics tomorrow. Manager Farmer McCarty is organizing the nine and says he is putting up a better game than most of the visiting nines have done.

THREE PLANS TO CHOOSE FROM

Board of Education Getting Nearer to a Decision on the High School.

The choice as to high school plans has been narrowed down to the plans of J. G. Chandler, of Racine; T. D. Allen, of Minneapolis, and Mr. Holbrook, of Chicago. All three have plans of handsome buildings, but the board will not make a definite selection for several days.

The three plans reserved by the board from which they will make choice represent three distinct styles of architecture, any of which would add beauty to the city besides providing comfortable accommodations for the different departments of the high school. The Holbrook plan represents the Grecian classic style of architecture. The Allen plan is of the Romanesque order, while the Chandler plan is a combination of different orders, worked harmoniously together, representing a modest, yet handsome building. The estimated cost of construction of the building has considerable influence with the board in making the choice. This varies several thousand dollars between the three plans, but this is owing entirely to the material used in construction. For instance, one is estimated to cost, using common brick, at \$37,000, but with red pressed brick and cut stone trimming, the cost would be several thousand dollars more. Should steel be used in constructing the cost would be increased.

"It will be some days before the board arrives at a decision," said Clerk Cunningham this morning. "We want to hear from some places where school houses were built after drawings by these architects. I wish all the people interested could see these plans. I would like to hear which one of the three buildings the majority prefer."

MILITIA STARTLED BY THE ALARM

Many Thought the Call For the Light Infantry Was Being Sounded.

Many people were more or less excited this morning when the fire bell struck the alarm for the Howe Brothers' factory. They supposed it was the signal for the militia to assemble at their armory. The militia call is twelve regular blows, given three times at intervals of ten seconds, making thirty-six blows and summons the troops to their armory, day or night. The signal may be given, should Governor Peck call out the state troops to assist in putting down the riots.

Those who attended the meeting last Sunday claim it is a cool place. Don't fail to hear Mr. Tracy, of Chicago.

The \$10,000 Stock Bought.

We will have the finest stock of shoes ever offered in the city on sale in a few days. Our Mr. Lincoln is invoicing it now, he bought it at 50 cents on the dollar. We will create a furor in the shoe business in Janesville during this month and August. The following telegram was received from Mr. Lincoln this morning. He wanted money enough to bind the bargain:

HARTFORD, MICH., July 6, '94, BROWN BROS. & LINCOLN—Send fifteen hundred dollars today. Will write. O. D. LINCOLN.

This speaks for itself. We will let the people judge for themselves as to the quality of the goods. The people are not all fools as some self styled "foot-fitters" would have you suppose. We are saving the people money, that is why they trade with us, and leave the poor old ship to stand loaded down with high prices.

BROWN BROS. & LINCOLN.

DID NOT DRAG BOYS BY THEIR LEGS.

WM. KNIPSCHILD ARRESTED ON A FATHER'S COMPLAINT.

Two Little Sogs of John Flood Claimed That the Defendant Had Tied Their Legs Together and Dragged Them Through the Street—Court Decided to Acquit.

John Flood of North Hickory street told an exciting story in municipal court this morning, and placing credence in the story Judge Phelps issued a warrant for the arrest of William Knipschild. Knipschild was charged with assault and battery.

"He caught my two little boys and tied their feet and legs together," said Mr. Flood. "He then dragged the little fellows along the road."

This was considered cruel and inhuman treatment by the excited father of the boys and he wanted Knipschild punished.

When Mr. Knipschild appeared in court soon after the warrant was served, the trial commenced. The two little Flood boys, aged eight and ten years, testified that Knipschild had tortured them as related by their father, but two older sons testified that no such treatment had been dealt the little fellows. Judge Phelps hesitated for some time, but finally concluded that it was more on account of a neighborhood quarrel than otherwise, and discharged the defendant.

FALSE ALARM CAUSED A RUN.

Automatic System at Howe Brothers' Factory Made a Morning Scare.

The alarm of fire at 11:35 o'clock this morning called the department to Howe Brothers' bat and mattress factory on North Franklin street. There was no fire, however. The automatic fire alarm broke a connection, causing an alarm at the fire stations.

We Will Not Be "Just Out."

We will offer a boys' combination suit, extra pants and cap. All wool, good color at \$2.89 for Monday and Tuesday, and agree to supply the demand until 20 suits are sold, which is all we have left. We want to distribute this rare bargain with twenty mothers in Janesville, so shall sell only one suit to a person. When you come we shall not cry "all out" as many people do who advertise goods at losing prices, but you will find here a combination suit at \$2.89 which is worth \$5 of anybody's money and just as you see advertised.

The Silent Sleepers.

Wrapped in the dreamless sleep of death; forgotten by the world save a small cluster of friends, are many who might, had they chosen, been enjoying life, health and happiness. Sad 'tis to contemplate that so many find an untimely grave because they trifle with their health and neglect disease in its early stage. The victims of disease of the stomach, liver and kidneys crowd the cemeteries of the land. Many remedies claim to cure such diseases, yet few there are which are not poisonous nostrums—medicines that impair rather than build up the systems. There is one remedy in which suffering humanity may place the utmost confidence. We refer to Dr. McClesney's Kidney and Liver cure. A trial will convince any one that it is a pure vegetable compound and a health restoring medicine. Life is too precious to experiment with. Readers of the Gazette will find this remedy for sale at all drug stores.

Wild Cherry Phosphate, a delicious temperance beverage. Directions: One teaspoonful of Wild Cherry is sufficient for an ordinary half pint glass. Sweeten with a teaspoonful or less of sugar. To make a gallon of beverage, use 2 to 2 1-2 ounces of Wild Cherry and a pound of sugar. The most convenient for every day family use is to make a syrup. To a 25 cent bottle of Wild Cherry use 1 1/2 pounds of sugar and 1 pint of water, hot or cold; mix all together until sugar is dissolved; then strain through cotton. One to one-half ounces of this syrup in a glass mixed with cold water makes a delicious and healthy drink, the same as we serve at our fountain every day.

SOME TALKS ABOUT SONG AND DANCE MEN

THEY ARE A PECULIAR SET OF FOLK.

A Professor Who Prepares This Class of Performers Chats with a Reporter—Some Pen Sketches of Different Styles of Professionals.

HERE ARE ONLY two movements in the stage dancing, backward and forward. All others are amplifications of those two primary movements," said a teacher of acting to a St. Louis Globe-Democrat reporter one day last week. In the window of a cigar store on Franklin avenue the reporter had noticed a large gilt frame filled with cabinet photographs of variety or specialty people and a flitter work card sign which read: "Private lessons in singing, dancing and comedy. Upstairs."

Filled with curiosity, the reporter climbed up a narrow flight of stairs at the side and knocked at the door of the school of acting. A stocky, smooth-shaven gentleman opened the door and said, "Come in." On entering the place was found to be a medium-sized room, bare of carpet and furnished only with two chairs and a sofa. A small and substantial looking trunk sat near the door, and after an exchange of cards the stocky, smooth-shaven gentleman sat down on the trunk and proceeded to tell what he knew about teaching amateurs how to become professional actors.

"What is the first thing you teach?" asked the reporter.

"How to shake the foot," answered the teacher. "And there's more in that than one would at first suspect," he continued. "There are only two movements in stage dancing; backward and forward. All others are amplifications of these two primary movements."

And, to illustrate, the teacher of acting arose and, standing gracefully on one foot, shuffled the other to and fro.

"Now, that's the right," he said, "and the left foot goes the same way. When you can do that you can dance."

"And when the pupils can do that do you give them something easy to go on with?"

"Oh, no! I set 'em a hot pace right at the start. That is, just as soon as they can shake their foot. All good dancers dance from the knee down and most of the work is done on the ball of the foot. Almost every beginner has what is known as one dead foot. That is to say, either the right or the left foot does not obey the will of the dancer so readily as the other one. But patience and practice overcome all that, and as soon as they can shake their foot right they can dance. See?"

"Now, about the singing—what music do you have to accompany?"

"Don't have any music; there ain't any need for music. If a body can't sing without music they can't sing with it. Say, I'll tell you what you do, you come back this afternoon, any time between 2 o'clock and 10 this evening, and like as not there'll be some of the boys here and you can see how it goes."

Late in the afternoon the reporter again betook himself to Franklin avenue and climbed the narrow stairway. Through an open door from above came the sound of male voices; it sounded like a trio, the refrain of which was "Sixty Years Ago." The singers—the teacher and two young

"WHEN YOU CAN DO THAT YOU CAN DANCE."

men pupils—were too much absorbed to notice the entrance of the stranger, and standing almost mouth to mouth they finished the song. A knock on the door sill caused the teacher to turn and greet the visitor. Introducing his pupils, he said: "Well, boys, let's go on with the lesson," and turning to one of them, he continued, "I've only had you three days, Farrell; show the gentleman what you can do."

Out to the middle of the sanded floor promptly stepped Farrell, and there, beginning with the backward and forward movements, he showed what an ambitious amateur can accomplish in dancing after only three days' instruction. Shuffle, shuffle went his feet, faster and faster, until the teacher's eyes glistened with pride and joy. "That boy'll become a clever performer some day," he said.

"Mr. Farrell, let's try that duet again," and advancing toward his pupil the teacher picked an imaginary chord and catching the key with his voice the song went on.

Smooth-shaven and a bit foxy-looking, the two stood there, teacher and pupil. The teacher carried the "lead" and the pupil filled in with a magni-

ficent but untrained voice, part of the time baritone, part of the time bass. "Hold on a minute," said Farrell, "haven't you got that too low?"

"Maybe I have," said the teacher, "but you know I've got a cold, and I can't get up as high as I otherwise would. However, we'll try again lower, and be careful to watch out for the minors."

Taking a lower key they again sang. When it came to the minors, teacher and pupil both bent forward until their lips all but touched and through the open window floated the beautiful air and words of "She Sang a Song of Home, Sweet Home, the Song That Reached My Heart."

"What is the cost of a wardrobe?" the teacher was asked.

"Well, that depends," he replied. "Wardrobe in the variety business is mostly picked-up stuffs. A performer, when he starts in the business, begins to pick up an odd or end here and there, and after he has been in the business a few years, finds himself in the possession of a good supply of stage clothes, which he can replenish from time to time in the same manner in which he secured his first bits."

"Now, there is a coat Charlie Reed

"ALL YOU'VE GOT TO DO IS TO PULL THE STRING."

used to wear. I don't know where Charlie Reed got it, but it originally came from Baxter street, New York. See, there's the name inside the collar, 'M. Bernstein, Baxter street, New York.' Do you know there are men in New York who make a business of visiting Castle Garden and buying clothes, right off the emigrants' backs. Well there are, and they do a good business, too.

"Some actors prefer to pick them out themselves. Every bit of wardrobe Ned Harrigan wears he picked up himself, and it's the same case with Ada Lewis, the tough girl."

"But, hold on a minute; wait till I show you the boss coat. Aint she a daisy? There's a cuckoo, that coat! How did I get it so ragged? Nothing but wear, nothing but wear. I worked in that coat for sixteen years, and even now I wouldn't think of going on to play a bum's part if I didn't have that coat on. I wouldn't feel right. I'd feel lost. Quite a difference between that rag and this end man's coat, isn't there. See, this is green plush—silk plush at that—and cost a lot of money. But I wouldn't give that old coat for all the rest of my wardrobe."

"Here's an Irish wig. You've seen many an old tad with just such a headpiece as that. That wig cost \$8 when it was new. Here's an end man's wig. They're cheaper. There's a Biddy wig, and look here, here's a fright wig. See how it works. There's a string attached to the front which runs over the top and down the back of the neck, through your sleeve into your hand. All you've got to do is to pull the string and the hair stands on end. See?"

"What line of variety business pays the best?"

"Black face just at present. Last season there were only three good black face teams in the country, and this season they are greatly in demand. Just watch the variety shows you go to and see if I aint right. A few years ago black face teams were a drug on the theatrical market. Most of the performers took up different lines, and the consequence is black face teams are now at a premium."

THE TURF.

Saladin's 2-year-old son, Ellodin, died at Wilmington, Del., recently. He was owned by George C. White-man and had shown splendid speed.

The famous Oriole stud, owned by Mr. John A. Logan, Jr., was sold under the hammer by Tattersall's of New York, recently.

The first European trotter to beat 2:40 as a 3-year-old was French bred, and at the time the feat was thought to be remarkable, but now such performances are getting quite common.

The Owners' and Trainers' association held a meeting at Cincinnati the other day, and unanimously recommended several changes of rules by the American Turf congress. The association recommended that the rules regarding the disposition of excess money in selling races be altered and that the money, instead of going to the club, shall be offered in purses to be run for later in the meeting. The association insists that every track under control of the Turf congress shall have a patrol judge at the head of the stretch. The association further recommends that the scale of weights be made heavier and that jockeys be not required to weigh in with the bridle.

J. E. Kittson of Philadelphia, son of Commissioner Kittson, has leased the Fairlawn stud farm from Mrs. Gen. W. T. Withers. Mr. Kittson will remove his thoroughbred brood mares, which are some of the most valuable in the country, to his noted farm.

MYSTERIES!

The Nervous System the Seat of Life and Mind. Recent Wonderful Discoveries.

No mystery has ever compared with that of human life. It has been the leading subject of professional research and study in all ages. But notwithstanding this fact it is not generally known that the seat of life is located in the upper part of the spinal cord, near the base of the brain, and so sensitive is this portion of the nervous system that even the prick of a needle will cause instant death.

Recent discoveries have demonstrated that all the organs of the body are under the control of the nerve centers, located in or near the base of the brain, and that when these are deranged the organs which they supply with nerve fluid are also deranged. When it is remembered that a serious injury to the spinal cord will cause paralysis of the body below the injured point, because the nerve force is prevented by the injury from reaching the paralyzed portion, it will be understood how the derangement of the nerve centers will cause the derangement of the various organs which they supply with nerve force.

Two-thirds of chronic diseases are due to the imperfect action of the nerve centers at the base of the brain, not from a derangement primarily originating in the organ itself. The great mistake of physicians in treating these diseases is that they treat the organ rather than the nerve centers which are the cause of the trouble.

DR. FRANKLIN MILES, the celebrated specialist, has profoundly studied this subject for over 20 years, and has made many important discoveries in connection with it, chief among them being the facts contained in the above statement, and that the ordinary methods of treatment are wrong. All headaches, dizziness, dullness, confusion, pressure, blues, mania, melancholy, insanity, epilepsy, St. Vitus dance, etc., are nervous diseases no matter how caused. The wonderful success of Dr. Miles' Restorative Nerve is due to the fact that it is based on the foregoing principle. DR. MILES' RESTORATIVE NERVE is sold by all druggists on a positive guarantee, or sent direct by Dr. Miles Medical Co., Elkhart Ind., on receipt of price, \$1 per bottle, six bottles for \$5, express prepaid. THE YACHT DAKOTAH WAS NEVER BEATEN.

THE AMERICAN YACHT ASTONISHING BRITISHERS.

Starting in Five Races with English Craft She Makes a Record of Five Straight Victories—Consternation in English Waters.

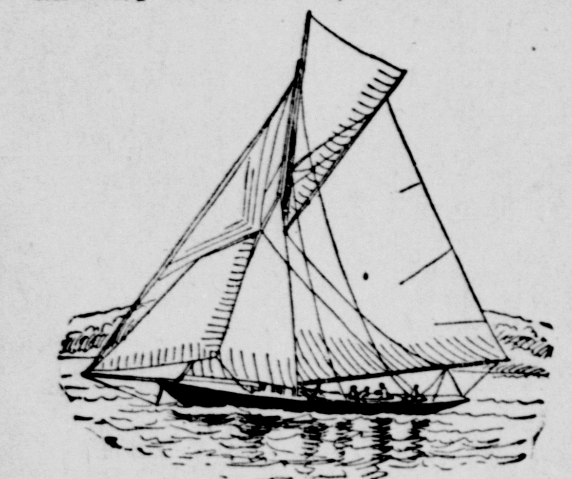

THE EASY MANNER in which the American 10-rater Dakota, designed by the Herreshoffs for Henry Allan of Glasgow, has defeated the entire fleet of English and Scotch boats in every race she has entered thus far in British waters, has caused no end of astonishment in England. She seems to have set the entire British yachting world by the ears and English yachtsmen are rubbing their eyes and wondering where they are at. Up to date the Dakota has started in five races, and has a clear record of five straight victories. She sailed her first race on May 24 in the Royal Western Yacht club's regatta, which she won by 2 minutes and 42 seconds. On the following day, May 25, in the Royal Northern Yacht club's regatta, she won again, this time by 7 minutes 13 seconds. On June 1, in the Royal Clyde Yacht club's race, she finished 45 minutes ahead, and on June 9 she is reported to have led the other boats in her class by over a mile in the Corinthian Yacht club's regatta on the Clyde. Her latest, and what was reported to have been her hardest, race was on June 16, when at Hunter's quay she won by less than 2 minutes from the five cutter Lilith.

The Dakota, which is a fin keel, is 36 feet on the water line, 50 feet over all, 9 feet 8 inches beam, and 4 feet 4 inches deep.

As in all Herreshoff boats, the construction is an interesting study, and the following dimensions of scantling will be specially interesting, as they are correct and have not been published. The oak keel is flat, 3 inches wide inside and about 3 inches thick. The frames are all of steamed and bent oak, spaced at irregular distances, varying from 12 inches to 14 inches centers; they are sided 1 1/2 inches and molded 2 inches at heels and 1 1/2 inches at heads. The floors are of oak planking, sided 1 1/2 inches and molded 4 inches, spaced about 6 inches, or on and between frames. Each is fastened to the keel by a center bolt of 3/4 inch Tobin bronze of similar metal.

Along the middle of the boat and on top of the floors run two fore and aft pieces of oak, 3 feet wide and 2 1/2 inches on each side. They are not parallel, but are 14 1/2 inches apart at the middle, while they curve in toward each end, finally butting on each side of a keelson piece 4 inches wide. There are two of these keelsons, one forward and one aft, but as they would interfere materially with the very limited headroom amidships, and would not serve to carry the fine bolts, they are omitted for the space of a dozen feet, the two side keelsons taking their places here. The mast heel is cut to straddle the fore keelson, two stout cleats being screwed to the top of the latter to prevent any movement of the mast forward or aft.

The clamps are of yellow pine, 2 1/2 x 2 inches, and the bilge clamps are 2 1/2 x 2 1/2 inches, all running well into the bows and counter. The main deck beams are sided 1 1/2 inches, and the short beams are sided 1 1/2 inches, all being moulded 2 inches and spaced as the frames. Under the deck on each side, at a distance of 3 feet from the side, runs a strengthening piece or clamp of yellow pine, 3 1/2 inches deep and 2 1/2 inches wide, bolted to the

THE DAKOTAH.

beams. At intervals of four frames each of these pieces is connected with a bilge clamp on the same side by a strut of yellow pine, 1 1/2 by 1 1/2 inches, there being ten of these struts on each side. The foot of each sets flat on the bilge clamp, while at the head it is joggled to fit the inner corner of the deck clamp. Running in a groove in the side of each strut is a rod of 3/4 inch Tobin bronze, passing through both clamps and set up by a nut at each end, as shown in the sketch, which gives the details correctly, though the form of section is not intended to be correct. This construction makes virtually a truss on each side connecting the bilge and deck, and disposing effectually of some of the heaviest strains due to the deep and heavy fin. The planking is double, an inner skin of pine or cedar and an outer of mahogany, each 7-16 of an inch thick, while the deck is also double, 13-16 of an inch in all.

The construction of the fin is different from the previous boats; instead of a single deep plate, three are used, all of Tobin bronze. The upper plates are each flanged on the upper edge to fit the bottom of the hull just under the oak side keelsons described above; they extend down a couple of feet, meeting at their lower edges and being riveted to a thicker plate held between them, which completes the full depth of the keel something over six

feet. In this way the fin itself is given a far stronger and wider base than by the old plan of angle irons on a single plate, the floor is in itself stronger; and, through the two inclined trusses, the strain is evenly transmitted from the floor to the whole structure.

Stage Finances.

First Dancer—I'm tired of this rehearsal. Let's go home.

Second Dancer—But the manager would object.

First Dancer—No, he wouldn't. He is too busy borrowing \$5 from the hundred-a-week comedian he has just engaged.

First baseman Tommy Esterbrook and catcher Martin Kennedy have signed with the Southern league.

At the Chess Match.

Dr. Schweitzer—Playing chess is like making love—the knight tries to take the queen; you are mated by the bishop; then off to the castle—in the air—and, alas! everything is in pawn!—Hello.

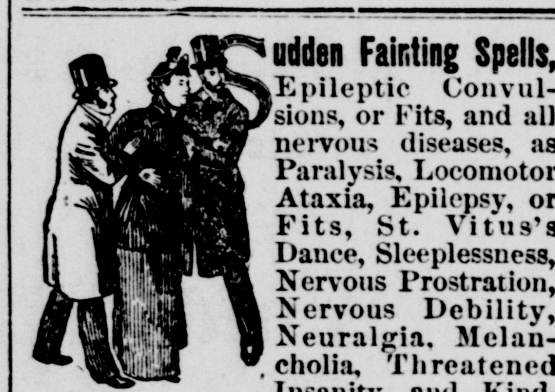

Cold Comfort.

Emily—I am so unhappy. I begin to see that Arthur married me for my money. Emily's Dearest Friend—Well, you have the comfort of knowing that he is not as simple as he looks.

One Instance.

Watts—Did you ever hear of a woman putting a monument on the grave of her husband after he had been dead for so long as six years?

Potts—Once. She did it to spite her second.

REV. FATHER CLARKE, Sec'y to the Rt. Rev. Bishop of Columbus, Ohio, writes:

Gentlemen:—I cannot say enough for your Powder. It has cured me of an aggravated attack of catarrh when nothing else could help me. Am delighted with it. All my friends to whom I administered samples are quite enthusiastic over it. The post sisters speak most encouragingly of their use of it in the hospital under their care. I will do anything to speak a good word for the remedy to help others who are suffering.

M. E. FERGUSON, Custodian U. S. Appraiser's Stores, Chicago, writes:

Gentlemen:—Being almost entirely deaf for a number of years past and getting no relief from many so-called cures which I tried, was induced by a friend to try Dr. Birney's Catarrh Powder for my deafness. Have recovered my hearing entirely, so that I can now hear a watch tick plainly, it being held 16 inches from my ear. Look upon it as a positive cure for deafness and have recommended its use to many of my friends and can say I have never heard of a case where it has failed to relieve.
